PROFESSIONAL SUMMARY

Final-year BS IT student with 1+ year of professional experience delivering responsive web applications and cross-platform mobile apps. Built and deployed **10+ client websites** at Nexcraft Studio adhering to WCAG accessibility standards. Currently instructing **20+ students** at Skillcastle Institute. Expanding expertise in React.js. Seeking internship or entry-level software development role.

WORK EXPERIENCE

Web Development Instructor

Dec 2025 – Present

Skillcastle Institute · Lahore

- Deliver training in WordPress, HTML5 & CSS3 with lesson plans aligned to industry standards
- Guide 20+ students from wireframing to deployment — each producing a portfolio-ready website
- Conduct code reviews & structured feedback to accelerate skill acquisition
- Coordinate with management to update curriculum with emerging tools and frameworks

Frontend Web Developer

May – Nov 2025

Nexcraft Studio

- Designed & deployed 10+ responsive client websites using WordPress & Elementor with mobile-first and WCAG accessibility principles
- Performed deep theme customisations — custom CSS overrides, layout restructuring, plugin integration
- Collaborated with PMs, designers & backend engineers — managed concurrent projects with zero missed deadlines
- Conducted post-launch performance audits & iterative UI improvements for long-term client satisfaction

PROJECTS

Responsive WordPress Websites

WordPress · Elementor · HTML5 · CSS3 · SEO

Production-ready corporate websites with mobile-first layouts, optimised load times, custom navigation, and consistent cross-browser rendering.

Flutter Mobile Application

Flutter · Dart · State Management · Firebase

Cross-platform mobile app with modular widget architecture, smooth transitions, and robust state management — deployed on Android and iOS.

Calculator & Login Form Apps

Java · HTML5 · CSS3 · Flutter

Multi-platform calculator with operator precedence logic alongside a secure auth interface with form validation and responsive layout.
